SCHOOL OF CAYMAN

September 2026

Welcome back to our returning families, and a warm welcome to our new families! We are excited to begin the 2026-2027 school year together.

The children are settling in, learning their new routines, and getting to know their teachers and classmates. We know that the beginning of a new school year can bring some tears—from both children and parents—and that is okay! Transitions take time, and every child adjusts at their own pace. Keeping drop-offs positive and reassuring, letting your child know that you trust their teachers, and reminding them that they are safe and cared for at MSC can make a big difference. Helping every child feel comfortable, confident, and secure is our main priority.

This month, we will be focusing on Grace & Courtesy as a school. Children will be learning and practicing important skills such as caring for themselves, others, and their environment, using gentle hands and kind words, waiting their turn, asking for help, and moving peacefully through the classroom. These lessons help set the foundation for a positive and caring school community and will continue to be reinforced throughout the year.

Please mark your calendars with the important dates included in this newsletter! Each class will also provide a monthly calendar so families can keep up with what is happening in the classroom. These calendars are also a great way to start conversations with your child about their day and what they are learning at school.

We look forward to a wonderful school year filled with learning, growth, and many special moments together!

"Grace and courtesy are among the first lessons in human relationships that we give to the child. These are, in their simplest form, the manners of everyday life."

IMPORTANT REMINDER!

A friendly reminder to ensure that your child has everything they need at school with them for the day and that their items are labelled. This includes a packed lunch, a spare change of clothes, diapers & wipes (if applicable), a hat for outside playtime, and a water bottle.

Parent Corner

This video beautifully demonstrates how much children are capable of when they are given time, trust, and the opportunity to be independent. The young girl is developing concentration, coordination, sequencing, problem-solving, and care for her environment—all through one meaningful everyday task. Our role as adults is not always to step in and help, but to prepare the environment, observe, and give children the space to say, "I can do it myself."
